

General Terms and Conditions of Sale and Delivery

1. Scope of application

These General Terms and Conditions of Sale and Delivery apply to all quotations, sales, deliveries and services provided by SALMCO Technik GmbH (hereinafter referred to as the "Seller"), unless expressly agreed otherwise in writing in an individual case.

2. Prices

Our quoted prices are ex works and include packaging but exclude freight, insurance, customs duties, other incidental costs, and statutory VAT, where applicable.

3. Delivery

Unless otherwise agreed in writing, the delivery period for machines is approximately 10–12 weeks after the order has been confirmed in full and the agreed initial payment has been received.

Any subsequent changes or amendments requested by the Buyer may result in a corresponding extension of the delivery period.

4. Payment terms

Unless otherwise agreed in writing, the following payment terms apply:

- 50% of the purchase price upon placement of the order,
- 50% of the purchase price prior to shipment of the machine.

Freight and insurance costs will be charged separately.

For individually agreed installment payments, the payment schedule and due dates specified in the respective payment agreement shall apply.

5. Retention of title

The delivered machine and/or goods shall remain the property of the Seller until all payments arising from the respective purchase agreement have been received in full.

In the event of agreed installment payments, ownership of the machine shall remain with the Seller until all agreed installments have been paid in full. Ownership shall only transfer to the Buyer upon receipt of full payment.

6. Warranty

Our machines are carefully inspected prior to delivery and are supplied in proper working condition.

The Seller warrants that the machine will be free from defects in materials and workmanship for a period of 12 months from the date of delivery.

The warranty does not cover:

- wear and tear parts
- damage caused by improper operation or handling,
- damage resulting from incorrect commissioning or installation on site,
- damage caused by insufficient maintenance,
- modifications or alterations to the machine,
- damage caused by the use of unsuitable or non-approved third-party components.

Any further claims, in particular claims for damages, shall only exist within the scope of applicable statutory provisions.

7. Machine training and acceptance

The Seller expressly recommends that the Buyer attend machine training at the Seller's premises.

Where possible, the machine should be inspected and accepted by the Buyer or the Buyer's authorized representative prior to shipment.

For the purpose of machine training, the Seller will provide accommodation for one person for up to two nights.

8. Test material for special requirements

For special processing requirements, the Buyer shall provide sufficient suitable samples or test material.

The material must correspond to the actual conditions under which the machine will be operated at the Buyer's premises.

9. Service, installation and repair work

For installation, training and repair services performed at the Buyer's premises, the Seller shall charge a service fee of currently EUR 1.200,00 per commenced working day.

Travel expenses, accommodation, meals and other additional costs will be charged separately based on actual expenses incurred.

10. Applicable law and place of jurisdiction

These terms and all contractual relationships between the Seller and the Buyer shall be governed exclusively by the laws of the Federal Republic of Germany.

For international business transactions, the United Nations Convention on Contracts for the International Sale of Goods (CISG) may apply, provided that its requirements are met and no deviating agreement has been made.

To the extent legally permissible, the place of jurisdiction shall be Norderstedt, Germany.
